

Noah Yinger Counseling

Counseling Passion:

First Responder Children (12-17):

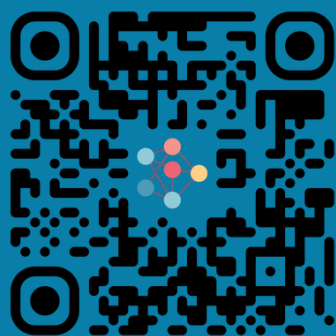

You protect the community every day, but it's natural to worry about how the job affects your family. Having grown up in a first responder household, I understand the unique dynamic your teenager lives in. I help youth (12-17) build resilience, process fear and stress, and find their own voice in a safe, judgment-free space.

Young Adults (20s):

Helping you manage the “what’s next” of life, from career burnout to identity and relationship shifts.
